by the Medical Profession

PROPHYLAXIS AND TREATMENT OF INTERNAL DISEASES

By **FREDERICK FORCHHEIMER, M.D.**

Professor of Theory and Practice of Medicine, Medical College of
Ohio, University of Cincinnati

THIS book, after years of labor in preparing the manuscript, is now ready. Covering as it does a subject never before adequately treated, the work will be enthusiastically welcomed by physicians the world over. Many vital points on the prevention and treatment of diseases which are underestimated by many medical writers are given by Dr. Forchheimer the consideration which the subjects demand.

No Practitioner, no Student can afford to be without it

OUR NEW ILLUSTRATED CATALOGUE SENT UPON REQUEST

D. APPLETON AND COMPANY, Publishers, New York

Cooper Medical College of San Francisco

Sick-rooms in Summer

can be kept cool and odorless by the following practical method:—

A towel or sheet, moistened with Platt's Chlorides diluted with ten parts of water, if frequently wafted about the sick-room and then hung up, will cool and purify the air by liquid evaporation and chemical absorption.

Platt's Chlorides, ***The True Disinfectant.***

An odorless, colorless liquid; powerful, safe, and cheap; sold in quart bottles only, by druggists everywhere; prepared only by Henry B. Platt, Platt Street, New York.

LIVERMORE SANITARIUM

THE SANITARIUM FOR NERVOUS AND GENERAL DISEASES is beautifully situated near the town of Livermore, 30 miles from San Francisco, and is surrounded by handsome grounds. It is isolated, the rooms are large and well furnished and the Sanitarium is specially adapted for the treatment of Neurasthenia, Nervous Dyspepsia, the Alcohol Habit and Morphomania. One building is especially adapted for Massage. Electricity, Hydrotherapy and Sun Bath. Terms \$30.00 to \$75.00 per week.

THE DEPARTMENT FOR THE TREATMENT OF MENTAL DISEASES is entirely separated from the Sanitarium and is located in grounds absolutely private. The central building is surrounded by small cottages for the better segregation of patients. The best-trained nurses are employed and all modern appliances for the proper care of the insane have been provided. Absolutely no restraint nor enclosures for patients. Terms \$25 to \$50 per week, depending upon the number of nurses required.

Address J. W. ROBERTSON, M. D., DRAWER S, LIVERMORE, CAL.

Lactopeptine

is not a combination of drugs.

Its physiological action is exerted solely upon the ingested food, in the way of assistance to its proteolytic conversion, along normal lines.

It is thus a distinct digestive aid in all Functional Dyspepsias, especially if characterized by gastric pain or uneasiness.

Dose: Powder, 20 grains.

Tablets, 2 to 4

Elixir, 1 tablespoonful.

*The N. Y. Pharmacal Assn
Yonkers, N. Y.*

Formula of Lactopeptine Powder: Sugar of Milk, 40 ozs.; Pepsin, 8 ozs.
Pancreatin, 6 ozs.; Ptyalin or Diastase, 4 drms.; Lactic Acid, 5 fluid
drms.; Hydrochloric Acid, 1 fluid drms.

LISTERINE

DERMATIC SOAP

A saponaceous detergent for use in the antiseptic treatment of diseases of the skin

Listerine Dermatic Soap contains the essential antiseptic constituents of eucalyptus (1%), mentha, gaultheria and thyme (each $\frac{1}{2}\%$). The quality of excellence of the soap stock (which contains no animal fats, and none but the very best vegetable oils) employed as the vehicle for this medication, will be readily apparent when used upon the most delicate skin, and upon the scalp. Before the soap is "milled" and pressed into cakes it is *super-fatted* by the addition of an emollient oil, and the smooth, elastic condition of the skin secured by using Listerine Dermatic Soap is largely due to the presence of this ingredient. The antiseptic constituents are added to the soap after it has received its surplus of unsaponified emollient oil, thereby retaining their peculiar antiseptic virtues and fragrance.

A sample of Listerine Dermatic Soap may be had upon application to the manufacturers—

What ESKAY'S FOOD

7 MONTHS, WEIGHT 6 1/4 LBS.

**did in 13
months for
Catherine
Hudson**

ESKAY'S FOOD brought Catherine Hudson, of Corydon, Ind., from the emaciated condition, shown in the top picture, to the splendidly nourished, healthy and happy condition, shown in the bottom picture, in the short period of 13 months.

ESKAY'S FOOD is a convenient and economical modifier of cows' milk. It breaks up the tough masses of casein, rendering them flocculent like mothers' milk. It also supplies the lact-albumin.

Samples and clinical reports sent upon request by the manufacturers.

GARDNER'S SYRUP HYDRIODIC ACID

is prepared from *pure resublimed Iodine* and contains 6.66 grains of this element in each fluid ounce, or 6.72 grains *gaseous Hydrogen Iodide*.

It is undoubtedly the very best form of Iodine for rapid assimilation and is superior to KI in every indication.

Its prominent features are its activity, palatability and the fact that it produces no gastric disturbance or other unpleasant effects.

DOSE, 1 to 2 teaspoonfuls, in water half an hour BEFORE meals.

Diet in Hot Weather

Eccentric John Abernethy was wont to tell his patients that "one-fourth of what we eat keeps us, the other three-fourths we keep at the risk of our lives." As one of the chief functions of food is the production of heat it naturally follows that in hot weather we require much less food than in winter, much less of the kind that is largely converted into calories. But in our present mode of life energy is no less essential in hot weather than in cold weather, and food is required to produce energy. It is therefore largely a question of the class of food material best adapted to sustain vital energy without unduly increasing the production of heat. Nitrogenous food is necessary to maintaining a normal balance in the tissues between waste and repair; but meat is "too heating" and its use in hot weather is not free from other dangers of a more serious nature. A diet consisting largely of fruit, eggs, fresh vegetables and

EGG-O-SEE

will best supply the energy required for both physical and mental effort and furnish an agreeable, strengthening and non-heating "hot weather diet." Egg-O-See supplies the protein of *whole wheat*—at all times a better form of protein than is furnished by red meat—the carbohydrates in easily digestible form, and eaten with cool cream it forms a solid foundation for every meal during the period when our temperate zone is decidedly tropical. Egg-O-See is not a "dietetic fad" nor a "food cure". It is simply whole wheat—nature's best cereal—so prepared as to be appetizing, easily digested and quickly assimilated. It is made from the finest California white wheat, steam-cooked for two hours, flaked and baked at high temperature—in other words *each flake is scientifically toasted* after being steam-cooked until the starch granules have burst their cellulose coats. Egg-O-See is the *-back to nature* food.

Full Size Package Sent to Physicians on Request

THE EGG-O-SEE CEREAL COMPANY

Quincy Ill. and Buffalo, N. Y.

A. M. A. Principles of Ethics.

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

ALPHOZONE IS ECONOMICAL

Although Alphozone costs \$1.25 per bottle of 90 one-grain tablets, it is an economical germicide because of its remarkable activity.

For instance, a pint of Alphozone solution, 1-in-3300 (costing 3 cents), equals in germicidal value a pint of U. S. P. hydrogen peroxide solution (costing from 30 to 50 cents).

Therefore, measured by results, hydrogen peroxide, though seemingly inexpensive, costs 10 or 15 times as much as Alphozone.

And Alphozone is better because its solutions are non-effervescent and non-explosive. Hydrogen peroxide is bulky and inconvenient to carry. Alphozone solution need not be carried around from place to place, for it is quickly prepared as needed by dissolving the requisite number of one-grain tablets in water, and is ready for immediate use.

Alphozone is adapted to both internal and external use and is indicated in all conditions where a germicide can be brought in contact with the infected surface; for example, summer diarrhea, and other gastro-intestinal affections, typhoid fever, skin diseases, chronic ulcers, purulent eye and ear affections, etc.

Alphozone is a pure, non-poisonous chemical (succinic peroxide), and we send samples of the tablets, with scientific literature, to any physician on request.

INDICATIONS

CATARRHAL AND INFECTED CONDITIONS OF THE MALE AND FEMALE GENITAL ORGANS—VAGINAL, URETHRAL, RECTAL, NASAL, ORAL, PHARYNGEAL, INTESTINAL, AS WELL AS PRICKLY HEAT, POISON OAK, LUPUS VULGARIS, DE-CUBITUS, BURNS, ULCERS, EXCORIATIONS, ABRASIONS, AND OTHER DISEASED CONDITIONS OF THE SKIN.

TYREE'S ANTISEPTIC POWDER

TWO SIZES
25¢ AND \$1.00

Antiseptic Saving

TYREE'S PULV. ANTISEPTIC COMP. does not contain water, alcohol or any "filling;" patient adds that. He does not pay for anything that is not necessary. 25 cents' worth will make 2 gallons of Standard Antiseptic Solution that would otherwise cost \$1.00 or more. Among Genito-Urinary Specialists, TYREE'S ANTISEPTIC POWDER is preferred to the usual remedies on account of its simple and effectual action directly on the mucous membrane of both male and female

GENITAL ORGANS.

This is the most economical means at hand for getting the full therapeutic value out of the best known agents in LEUCORRHOEA and GONORRHOEA. It is also the safest and surest means. Literature descriptive of its application together with clinical reports and a most interesting booklet entitled, "George Washington's Physician, Their Friendship and His Treatment During the President's Last Illness," will be mailed free of cost upon request.

J. S. TYREE, Manufacturing Chemist,
WASHINGTON, D. C.

TANPHENYFORM

WARNER & CO.

KNOWN PREVIOUSLY AS TANFORMAL.

Energetic, Intestinal, Astringent and Antiseptic.

Liberates Tannic Acid, Phenol and Formaldehyde, due to a gradual and continuous chemical reaction, as soon as it comes in contact with the Alkaline intestinal secretions,

CONTROLS the DIARRHEA of TYPHOID FEVER and other infectious diseases and inhibits the development of the micro-organism and astringes the congested and inflamed mucosa, including the infected and ulcerated peyer's patches, thus, it greatly limits the possibility of hemorrhage and perforation.

Does not disorder digestion nor derange the stomach, is eliminated by the bowels and kidneys.

The following clinical report from a Physician in Kansas illustrates its exceptional Therapeutic value.

"TANPHENYFORM (Tanformal) controlled diarrhea in Typhoid when everything else failed."—DR. G——

The NAUHEIM BATHS

Are Given by Means of the

TRITON Effervescent BATH SALTS

DR. MARY PUTNAM JACOBI (Physician St. Mark's Hospital, N. Y.) writes us:

"I think very highly of the Triton Salts and use them constantly."

DR. SIMON BARUCH (Physician Wright Hospital, N. Y.) writes us:

"I regard the Nauheim System as a permanent improvement in therapeutics."

DR. WM. H. THOMPSON (Ex-President New York Academy of Medicine) writes us:

"I have no hesitation in recommending your artificial Nauheim Salts."

DR. JAMES TYSON (Professor of Medicine, University of Pennsylvania) in his Practice of Medicine, 1903, speaking of valvular heart disease hypertrophy and dilatation, says:

"The Nauheim Treatment is especially useful; fortunately artificial baths may be substituted for the natural ones. Their therapeutic efficiency is undoubted. They are also useful in renal affections. The deep-seated organs are relieved of congestion, while the heart derives from its improved coronary circulation material for the repair of weakened tissue."

The preparation of an artificial Nauheim Bath, surcharging the water with carbon dioxide by adding to a tub of water a package of Triton Salts, is simple to the last degree. We shall be glad to send literature and manual of the Nauheim Treatment on request.

Cystogen-Lithia

An effervescent tablet of Cystogen (crystalline)
3 grains and Lithium Tartrate 3 grains.
Urlic acid solvent and alkaline urinary
antiseptic.

DOSE—One or two tablets in a glass of water,
three or four times daily.

The idea of this combination was given us by observ-
ing the large number of physicians using CYSTOGEN
with LITHIA in gouty and allied affections.

**Where Cystogen is indicated, Lithia is of advantage;
Where Lithia is prescribed, Cystogen is indicated.**

INDICATIONS—Rheumatism, gout, urinary deposits, calculus, cystitis, prostatitis and
gonorrhea. A good urinary antiseptic during convalescence from typhoid and scarlet fever.

CYSTOGEN PREPARATIONS

Cystogen—Crystalline Powder.
Cystogen—5 grain Tablets.

Cystogen-Lithia (Effervescent Tablets).
Cystogen-Aperient (Granular Effervescent Salt
with Sodium Phosphate).

ABBOTT'S SALINE LAXATIVE

(GRANULAR, EFFERVESCENT, MAGNESIUM
SULPHATE COMP.)

Repurified dehydrated magnesium sulphate, in effervescent combination with true tartaric acid, sodium bicarbonate and sugar, is one of the pleasantest and most efficient laxatives or cathartics, according to dose given, and one of the best cellular eliminants known to medicine.

It is absolutely non-irritating, pleasant to take, promptly efficient and never grips. A thoughtful moment must demonstrate to any physician the great utility of this preparation and determine him, if he has not already done so, to introduce it in his practice.

A heaping teaspoonful in a glass of room-warm water before breakfast, for a few mornings, is all that will be required for a convincing demonstration, and we will gladly send samples on request.

"ABBOTT'S SALINE LAXATIVE" may be obtained of your jobber; of your retailer on prescription; or direct from our laboratories. Prescription price (Retail) 50c. Per dozen (Trade) \$4.00.

THE ABBOTT ALKALOIDAL CO.

50 West Broadway New York Ravenswood Station CHICAGO 1361 Franklin St. Oakland, Cal.

NOTE—We are headquarters for active-principle granules and tablets and success-making specialties. Our line is obtainable from jobbers in drugs, on prescription at first-class pharmacies, or direct from our laboratories or branches. "Specify what you want and get it!" Samples, price-list and literature on request.

This is the Original and Genuine Saline Laxative

with a few sample reports as to its popularity. All others are jealous piratical attempts at imitation.
Imitators Don't Succeed!

No "Just as Good"

Please send $\frac{1}{2}$ doz. lbs. of Saline Laxative as soon as possible. I use it all the time. I have tried others claimed to be "just as good," but they do not "fill the bill."

Janesville, Ia.

DR. D. S. BRADFORD.

"Single Handed"

I prescribed Saline Laxative for a little fellow's disordered stomach, sent it single handed and alone to do the work and it did it. I have taken some few doses of it and I confess that its mildness suggests that it is perfect in every respect.

Griffithsville, Ark.

DR. R. H. WHITE.

"Only One Complaint"

I have prescribed Saline Laxative for at least 700 different people, and the only complaint I can think of now, is, that it keeps my patrons well and reduces the volume of business which is or should be the aim of all *real* physicians.

Freemont, Nebr.

DR. J. S. DEVRIES.

"More Orders"

Your Saline Laxative is a splendid refrigerant and anti-ferment, and a sure laxative. I will send other orders soon.

Vicar Switch, Va.

F. H. LUSHBAUGH, M. D.

"More Every Day"

It is the best laxative on the market and I am using more of it every day.

Aurora, Ill.

DR. E. T. HARTLESS.

"A Can a Day"

I have long ago passed the "one can per day" of the Saline Laxative. It does the work.

Grand Rapids, Mich.

DR. C. H. WINTON.

"A Superior Preparation"

I have been using Saline Laxative for some time and find your preparation to be superior to any substitute I have tried. I use it now altogether, and would not think of getting along without it.

Anthon, Ia.

DR. W. T. SCHWABLAND.

DOCTOR—TRY IT FOR YOURSELF

If you have tried others it won't take you long to determine what you will use.

New gonocoid for internal and topical use
free from the drawbacks of the older remedies

Acute Gonorrhea is arrested, or its course rendered brief and painless.
Chronic Gonorrhea, even in the female, is soon improved and finally cured.
Given in capsules, urethral bougies, vaginal globules or by injection.

LITERATURE
and SAMPLES from

SCHERING & CLATZ,
58 Maiden Lane, New York.

THE appalling infant mortality of the summer months is largely due to the dangerous quality of milk furnished most communities, and particularly the larger cities. Most peddled milk contains an enormously high bacterial content and the use of preservatives is by no means uncommon. Even boiling of milk, once it is tainted, does not eliminate danger. The rational solution lies in the use of

Highland Brand Evaporated Cream

Sturdy, sweet, and of cow's milk, produced in modern dairies, handled with the most scrupulous care, and condensed and evaporated by a process which insures easy digestion and gives absolute protection against all germs and other impurities. It is the simplest, most uniform and satisfactory substitute food for infants and also replaces fresh milk for household purposes. Trial quantity sent on request.

HELVETIA MILK CONDENSING CO., Highland, Ill.

In Summer Complaints

THINK OF

ALKARHEIN OF USE IN INDIGESTION

OF COURSE IT WILL NOT CURE ALL CASES OF DYSPEPSIA, BUT IT WILL BE SURPRISING HOW USEFUL IT WILL PROVE IN SO MANY DERANGEMENTS OF THE GASTRO-INTESTINAL TRACT.

COMPOSITION—WITH PHYSIOLOGICAL ACTION.

Rhubarb 2½ Grains	A superior laxative because it does not impair but improves the digestion—Is a tonic, also astringent.
Golden Seal 1 1-4 Grains	(With the acrid resin removed)—The great tonic and corrector of the mucous surfaces.
Potassium Bicarbonate 2½ Grains	Antacid. Increases Alkalinity of the blood and the oxidation and excretion of effete matters.
Pancreatin 1 Grain	Promotes intestinal digestion, converts starch into sugar and dextrose; proteids into peptones; emulsifies fats, digests the casein of milk.
Ceylon Cinnamon 1 1-4 Grains	Valuable in atonic conditions of the intestinal mucous membranes, with flatulence and diarrhea.
Spirit of Peppermint	and a minimum of Simple Elixer is a menstruum that will commend itself to physicians.

Think of Alkarhein in acid dyspepsias, flatulent colic, infantile colic, cholera infantum, cholera morbus, diarrhea and all abnormal acid conditions of the alimentary tract. Think of Alkarhein in these cases and prescribe it as thousands of physicians have been doing for many years with the confidence born of experience.

SAN FRANCISCO

TRI-IODIDES (HENRY'S) Liquor salt-iodides.

Colchicin, 1-20 grain; Phytolaccin 1-10 grain; Solanin, 1-3 grain. Soda Salicylate, 10 grains. Iodic Acid, equal to 7-32 grains Iodine. Aromatic Cordial. Dose 1 to 2 drams in water. 8-oz. bottle, \$1.00.

A powerful alterative and resolvent and hepatic stimulant, and succedaneum to the iodides. Indicated in all conditions dependent upon perverted tissue metabolism; in lymphatic engorgements and functional visceral disturbances; in lingering rheumatic pains which are "worse at night." Bone, periosteal and visceral symptoms of late syphilis; for the removal of all inflammatory, plastic and gouty deposits.

A remedy in sciatica, migraine, lumbago and muscular pains; the gouty and rheumatic diathesis; acute and chronic rheumatism and gout; chronic eczema and psoriasis, and all dermic disorders in which there is underlying blood taint.

An hepatic stimulant increasing the quantity and fluidity of the bile. Relieves hepatic and intestinal torpor; does not cause the unpleasant gastric symptoms of potassium iodide.

THREE CHLORIDES (HENRY'S) Liquor Ferrisenic.

Each drachm contains Proto-Chlor. Iron, 1-8 gr.; Bi-Chlor. Mercury, 1-128 gr.; Chloride Arsenic, 1-280 gr.; Callaya Cordial. Dose, 1 to 2 drachms. 12-oz. bottle, \$1.00.

An oxygen-carrying ferruginous preparation, suitable for prolonged treatment of children, adults and the aged. Indicated in anemia and bodily weakness, convalescence from acute diseases and surgical operations; boys and girls at the age of puberty, and the climacteric period in women. In children with chorea, rickets, or who are backward in development, or in whom there exists an aversion to meats and fats. Prolonged administration never causes "iron headache."

As an adjuvant for potassium iodide the undesirable manifestations known as iodism can be removed. Stimulant to the peptic and hydrochloric glandular system of the stomach, especially serviceable in the impaired appetite, nausea, vomiting and other gastric symptoms of alcoholic subjects.

MAIZO-LITHIUM (HENRY'S) Liquor Lithium Malzenate.

Nascent Chemic Union of Malzenic Acid—from Green Corn Silk—with Lithium, forming Malzenate-Lithium. Two grains to drachm. Dose, 1 to 2 drachms. 8-oz. bottle, \$1.00.

A genito-urinary sedative, an active diuretic; solvent and flush indicated for the relief and prevention of renal colic; a sedative in the acute stages of gonorrhoea, cystitis and epididymitis; in dropsical effusions due to enfeebled heart or renal diseases. As a solvent in the varied manifestations of gout, goutiness and neurotic lithemia, periodical migrainous headache, epigastric oppression, cardiac palpitation, irregular, weak or intermittent pulse; irritability, moodiness, insomnia and other nervous symptoms of uric-acidemia. Decidedly better, more economical, extensive in action and definite in results than mineral waters.

Those cases of irritable heart, irregular or intermittent pulse so frequently met with by insurance examiners and found to be due to excess of uric acid, are special indication for Maizo-Lithium.

Time and Money Saved

BY THE WONDERFUL

OGDEN-LUCIN CUT-OFF

ON THE

Union-Southern Pacific

THE OGDEN-LUCIN CUT-OFF, the engineering marvel of the nineteenth century, was built to save transcontinental passengers seven hours in time and the expense of three meals.

The new composite-observation cars, with train libraries, superb dining-car service, luxuriously appointed sleeping cars, with all the modern conveniences for ladies and gentlemen, and the courtesy of employes make traveling a pleasure on this route.

Then, the unusually interesting scenery of the Rocky and Sierra Nevada Mountains, and the novelty of crossing the great dead sea of America—Salt Lake—by rail, make the trip one long to be remembered.

But send for our illustrated literature. You'll find it very interesting whether you intend traveling or not.

St. Louis University

MEDICAL DEPARTMENT

(MARION-SIMS-BEAUMONT COLLEGE OF MEDICINE)

ST. LOUIS, MO.

Offers a course in medicine, consisting of laboratory, didactic, clinical and sectional instruction, exercises, demonstrations and elective work, in this way meeting the highest modern requirement of medical instruction.

Abundant clinical material is afforded by two large general dispensaries, obstetric dispensary, and nine hospitals with a capacity of 1,000 beds, under the direction of members of the faculty, in addition to the city institutions.

The work of the first two years in Anatomy, Physiology, Histology, Embryology, Chemistry, Pharmacology and Physiological Chemistry, Pathology and Bacteriology has been placed upon a University basis. The instructors holding chairs in these departments devote their entire time to teaching and research.

TULARE, - - CALIFORNIA

The Hospital of the Good Samaritan

ESTABLISHED 1887.

934 WEST SEVENTH STREET, LOS ANGELES, CAL.

The Hospital of the Good Samaritan is an institution of 100 beds for patients, a diocesan hospital owned and managed by the Episcopal church in Southern California, but undenominational in its benefits, being a general hospital for the reception of patients, irrespective of nationality or creed. The hospital does not have an attending staff and is open to all reputable physicians, especial effort being made to serve the profession as a whole. The hospital has a house pathologist, and furnishes all laboratory work free to those in moderate circumstances.

FOOD AND DIET.

The hospital is provided with a main kitchen and five diet kitchens, equipped with steam cooking utensils. All dishes used in the hospital are sterilized after each meal. The hospital controls a private dairy ranch, insuring patients the purest milk and farm products. The drinking water is passed through Pasteur filters and then sterilized under high pressure.

OPERATING ROOMS.

These rooms are four in number, and used for different purposes. The main operating pavilion, of six rooms, is considered most modern and complete.

OBSTETRICAL DEPARTMENT.

This department consists of a confinement, an operating, and a sterilizing room and a nursery with incubator.

CHILDREN'S DEPARTMENT.

This is especially equipped for Orthopedic Surgery, having an X-Ray room, plaster room, electricity and massage rooms and gymnasium; also a sun room for the administration of Violet rays in tubercular joint disease.

THE HOSPITAL SIGNAL AND TELEPHONE SYSTEM.

This system has been installed throughout the building.

PROVISION FOR ALL CLASSES.

There are elegant suites and apartments, with private baths and telephones, for those who desire luxurious accommodations, and the hospital is also prepared to take care of those in moderate circumstances.

TRAINING SCHOOL FOR NURSES.

This school gives a three years' graded course. The work of each year consists of eighty didactic lectures, on ten different branches, by physicians and surgeons; fifty classroom instructions, given by the superintendent and Head Nurses of the various departments, including practical work in cooking, massage, electricity and medical gymnastics, and general medical and surgical duty, special duty, operating room service, service in the children's department and in the obstetrical department.

St. Luke's Hospital

VALENCIA ST., Near Junction of Mission, SAN FRANCISCO, CAL.

199 GOUGH STREET

SAN FRANCISCO.

These institutions are owned and controlled by reputable physicians, and are conducted upon strictly ethical lines. They were opened and are maintained solely for the purpose of treating the Alcohol and Narcotic Drug Addictions by methods based upon the original investigations of Dr. Geo. E. Pettey of Memphis, Tenn., and first published to the profession by him in 1901. (See Therapeutic Gazette, Oct. 1901.) The method of treatment introduced by Dr. Pettey removes these addictions from the list of almost incurable diseases and renders them the most certainly and readily curable of all the chronic ailments. For Terms, Address Retreat Most Convenient to You.

MISS LOUISE A. MOORE Ph. B., Graduate Nurse, Superintendent.

THE *California Hospital*

LOS ANGELES

A DELIGHTFUL HOME FOR THE SICK AND CONVALESCENT.

The California Hospital is one of the unique establishments of America. With over one hundred and seventy-five rooms, five operating rooms, delightful roof gardens and verandas, spacious grounds dotted with semi-tropical trees and plants, with a corps of nearly one hundred nurses, and with the most nourishing, palatable and healthful food, prepared by a first-class chef, it combines all of the necessary attributes of a hospital with the comforts of a first-class modern hotel. Particular personal attention will be given to physicians and members of their families.

Address Medical Director, California Hospital, 1414 South Hope Street, LOS ANGELES, CAL.

CLARK'S SANITARIUM

For the care and treatment of
Mental and Nervous Diseases and
of Morphine and Alcoholic Habits,
was established by Dr. Asa Clark,
Medical Superintendent of the Cal-
ifornia State Hospital at Stockton.

Address for further information DR. F. P. CLARK, Medical Supt., or J. M. ANDERSON, Business
Manager. P. O. Box 297. Phone, 351 Green Stockton, Cal.

To aid the kidney in its work of eliminating the poisons from the blood is the action of

NEPHRITIN

The vital substance or grains of segregation of the cells of the cortex of the kidney and its convoluted tubules.

Should be tried in every case of Bright's and other forms of Nephritis.

Contains none of the renal connective tissue and is not a dried extract or desiccated kidney, but a true physiological product, consequently can be used in every case without injury.

Translation of Renaut's remarkable scientific article on the renal function is now ready and will be sent with samples of Nephritin upon request.

Reed & Carnrick,

42-44-46 Germania Ave., JERSEY CITY, N. J.

Gouty and Rheumatic MANIFESTATIONS

Yield to

COLCHI-SAL

The base of each 4 Colchi-Sal is $\frac{1}{4}$ mil. dissolved in natural

minum capsule of 1 gram of colchicine, methyl salicylate.

LOCAL PAIN RELIEVED

By

BETUL-OL

A methyl-oleo-salicylate with menthol. Betul-ol penetrates the skin rapidly, producing anodyne effects and local antiseptic action at the seat of inflammatory rheumatic, gouty, neuralgic or sciatic pain.
